

Losting indentation reopen function code

Posted by Marcus2 - 2010/05/11 16:54

Using

Dreamcoder for MySQL free edition version 5.2.2.0

MySQL database version 5.1.42-community

Microsoft Windows Vista Home Basic SP1

When I reopen a function the code result in losting some indentations

The attached picture show the code as I wrote and the code that I find when reopen for modify.

Does it is the normal behaviour? Can I avoid the losting of the indentation?

Hope in somebody reply

Thanks in advance <http://www.sqldeveloper.net/images/fbfiles/images/ScreenShots.jpg>
