

## reverse engineering table - feature for the future

Posted by ingemars - 2010/04/17 06:13

---

Hi, I was just wondering if it is possible to reverse engineer a table to get exactly how it is created, in Enterprise ed for MySQL.

I have seen, and successfully been able to use the MySQL Workbench 5.1, which has this feature under its Database.Reverse...

So, simply put is supported somewhere in DreamCoder Ent. where I don't find it?

Regards,

=====

Hi,

We works in a ER - Reverse Engineer option but this is not yet available in our product.

Regards,  
Peter
