

DreamCoder for Oracle ver 4 and Windows Vista

Posted by ptesone - 2009/03/16 11:15

Hi,

Does this version supports Vista?

Question from : Gilli Rosenzweig

Hi,

DreamCoder for Oracle works in windows VISTA, but in some cases the windows can't allow to access the dreamcoder for oracle directory.

You need to allow the full access to the dreamcoder for oracle directories.

Regards,
Peter Tesone
